### What Are Commercial Bonds (& Why Do I Need One?)

For many businesses, there is a huge “trust gap” between you and the public. How can they be sure that you will do the work you’re being paid to do (and do it correctly)?

Commercial bonds are the solution. Commercial bonds, also known as business bonds or surety bonds, guarantee that a contractor will fulfill the obligations of their contract. Although commercial bonds aren’t an insurance policy in the traditional sense, they do provide a financial guarantee of your work and protect your customers against risk.

Getting coverage is quick and easy! Simply [click here](#), select the bond you want, enter your information, submit your application, and DONE! You’ll receive instant approval and your policy will be issued within minutes.
